# ABOUT US

---

We're India's leading manufacturer of smart home automation solutions, estd. 2020 in Ahmedabad.

Till date, we've supplied 4,00,000+ hardware units to leading brands, which include HomeMate , Helea , Zunroof , Vinay Electricals.

We have a Complete lineup of high-quality products, all manufactured in-house.

# OUR ADVANTAGES

## Retrofittable products

Our products can be installed in any existing setup, old or new. No rewiring, no wall damage. This flexibility helps you attract more customers.

## Works without internet

We provide Wi-Fi enabled solutions that connect locally with routers. So they're not dependent on Z-Wave or live internet connection.

## Portable & Sleek Designs

Our solutions are compact & elegant, therefore easily customizable to your brand's unique needs & requirements.

## Voice-enabled with Alexa/Google

**Etarnus's** products support integration with popular voice assistants, enabling you to capture consumers who are looking for such features.

## Robust Support & Resources

Our team is available 24/7 to assist you on call, email, or social media. We also supply brandable templates for user manuals, packaging, etc.

## Sustainable & Robust Models

We put special emphasis on making our products energy-efficient & durable, so you can promise 5-star quality to your customers.

## Proudly Made in India

We assemble the products locally in Ahmedabad, enabling us to deliver your orders in minimum turnaround time. All of them are "ready-for-shelf" solutions.
